Making the Modern Criminal Law-Lindsay Farmer 2016-01-21 The Criminalization series arose from an interdisciplinary investigation into criminalization, focussing on the principles that might guide decisions about what kinds of conduct should be criminalized, and the forms that criminalization should take. Developing a normative theory of criminalization, the series tackles the key questions at the heart of the issue: what principles and goals should guide legislators in deciding what to criminalize? How should criminal wrongs be classified and differentiated? How should law enforcement officials apply the law's specifications of offences? This, the fifth book in the series, offers a historical and conceptual account of the development of the modern criminal law in England and as it has spread to common law jurisdictions around the world. The book offers a historical perspective on the development of theories of criminalization. It shows how the emergence of theories of criminalization is inextricably linked to modern understandings of the criminal law as a conceptually distinct body of rules, and how this in turn has been shaped by the changing functions of criminal law as an instrument of government in the modern state. The book is structured in two main parts. The first traces the development of the modern law as a distinct, and conceptually distinct body of rules, looking in particular at ideas of jurisdiction, codification and responsibility. The second part then engages in detailed analysis of specific areas of criminal law, focusing on patterns of criminalization in relation to property, the person, and sexual conduct.

International Criminal Law-Edwin Bikundo 2016-04-22 This book analyses the relationship between law and violence, the utility of law over violence and whether legality as an approach has an inherent disability in addressing mass violence as a crime. The study is located within international law and assesses whether prosecuting political violence would necessarily entail an abuse of the legal process. The intention is to encourage definition of criminal aggression via legal processes laid down by the International Criminal Court, rather than giving favour to political action under the United Nations Charter. Issues discussed in the book include the controversies over the location of the crime of aggression in either law or politics, taking a legal approach to the problems outlined. Using examples from Libya, the Ivory Coast, and Kenya, the work will be of interest to those working in the areas of international criminal justice, international law, legal theory, and international relations.

The second consists of case studies examining recent atrocities. The third section examines differences between legal and social concepts of genocide. Part four discusses the treatment of genocide in courts and tribunals throughout the world. The final section covers alternatives to trial justice and questions of prevention and sentencing.

The Rights International Companion to Criminal Law and Procedure:An International Human Rights Law Supplement-Francisco Martin 1999-07-15 Over the last ten years there have been dramatic changes in international relations accompanied by an exponential growth of international law—especially in human rights and humanitarian law. To competently meet the challenges presented by these developments, law students and lawyers must learn how international law relates to, informs, and can trump domestic law in the fields of constitutional law, property, and criminal law and procedure. International law, however, is rarely required in law school. The Rights International Companion series is designed both as a series of international human rights, humanitarian, and comparative law supplements to law student casebooks on constitutional law, property, and criminal law and procedure, as well as a quick, helpful reference for lawyers. Each Companion tracks the themes of major coursebooks. Cross-references to these coursebooks are provided on the Rights International website: <http://www.rightsinternational.org>. Rights International is a non-profit organization that provides legal assistance to victims of human rights violations before international courts and tribunals. Rights International has the largest international human rights case docket spanning four continents. They also train lawyers and law students in international human rights law and practice.

Criminal Legalities in the Global South-Pablo Ciochini 2019-08-22 This edited volume presents the work of academics from the Global South and explores, from local and regional settings, how the legal order and people's perceptions of it translates into an understanding of what constitutes "criminal" behaviors or activities. This book aims to address the gap between criminal law in theory and practice in the Global South by assembling 11 chapters from established and emerging scholars from various underrepresented regions of the world. Drawing on research from Singapore, the Philippines, Peru, Indonesia, India, the Dominican Republic, Burma, Brazil, Bangladesh, and Argentina, this book explores a range of issues that straddle the line between social deviance and legal crimes in such societies, including extramarital affairs, gender-based violence, gambling, LGBT issues, and corruption. Issues of inclusivity versus exclusivity, modernity versus tradition, globalization of capital versus cultural revivalism are explored. The contributions critically analyze the role politics and institutions play in shaping these issues. There is an urgent need for empirical studies and new theoretical approaches that can capture the complexity of crime phenomena that occur in the Global South. This book will provide essential material to facilitate the development of new approaches more suitable to understanding the social phenomena related to crime in these societies. This book will make an important contribution in the development of Southern criminology. It will be of interest to students and researchers of criminology and sociology engaged in studies of sentencing and punishment, theories of crime, law and practice, and postcolonialism.

International Criminal Justice-Gideon Boas 2012-01-01 International criminal justice indeed is a crowded field. But this edited collection stands well above the crowd. And it does so with dignity. Through interdisciplinary analysis, the editors skillfully turn shibboleths into intrigues. Theirs is a kaleidoscopic project that scales a gamut of issues: from courtroom discipline, to gender, to the defense, to history. Through vivid deployment of unconventional methods, this edited collection unsettles conventional wisdom. It thereby pushes law and policy toward heartier horizons. ð Mark A. Drumbl, Washington and Lee University, School of Law, US International criminal justice as a discipline throws up numerous conceptual issues, engaging disciplines such as law, politics, history, sociology and psychology, to name but a few. This book addresses themes around international criminal justice from a mixture of traditional and more radical perspectives. While law, and in particular international law, is at the heart of much of the discussion around this topic, history, sociology and politics are invariably infused and, in some aspects of international criminal justice, are predominant elements. Fundamentally the exploration concerns questions of coherence and legitimacy, which are foundational to both the content and application of the discipline, and the book charts an illuminating path through these diverse perspectives. The contributions in this book come from some of the eminent scholars and practitioners in the area, and will provide some profound insight into and an enriched understanding of international criminal justice, helping to advance the field of study. This ambitious and necessary book will appeal to academics and students of international criminal law, international criminal justice, international law, transitional justice and comparative criminal law, as well as practitioners of international criminal law.
